THIS WEEK:

**INQUIRY: HP LECTURE**  - How Architecture Works, A Humanist’s Toolkit by Witold Rybczynski

Thursday, February 28, 2013 at 6:30 PM

Schermerhorn 612, Columbia University

This event is FREE and open to the public

Refreshments will be served
Historic District Council Preservation Conference
Iron & Steel Preservation Conference
Alliance for Historic Landscape Preservation 2013 Conference
International Conference on Metal Conservation
Association of Preservation Technology NYC 2013
Eagle Hill Institute: Lichens, Biofilms, and Stone Seminar
International Conference Built Heritage 2013 Monitoring Conservation Management
International Architectural Paint Research Conference Call for Papers
APT NYC 2013 Call for Abstracts
William Randolph Hearst Foundation Fellowship 2013
LPC: Adolf Placzek Fellowship
TCLF Sally Boasberg Fellowship Application
2013 Rudy J. Favretti Fellowship Carter Hall, Millwood, VA
2013 William D. Rieley Fellowship Reynolds Homestead, Critz, VA
New York Historical Society WWII & NYC
The World Trade Center Illustrated Lecture and Book Signing
Inquiry HP: Witold Rybczynski
GSAPP Lectures
The Herbert H. Lehman Center for American History Lecture Series
Preservation Society of Newport Winter Lecture Series
Walter Sevovic Architects Position
Fallingwater Preservation Internship
Building Conservation Associates Internship
New Jersey Interpretive Specialist I Historic Resources
Pennsylvania DOT Cultural Resources Management Internship
York Glaziers Trust Training Opportunity and MORE!

February 2013
March 2013
Scientific Aspects of Art Conservation
Prague, Czech Republic Summer Session II 2013
Victorian Society in America Summer School
Architectural Restoration Field School
The Croatia Conservation Field School
The 2013 Preservation Conference takes its inspiration from recent trends in preservation and the relationship between development and preservation in New York City. The keynote, panels and discussions will address several case studies that showcase how preservation has brought positive change to New York City and made it the city we enjoy today.

The Conference will consist of speakers highlighting both broad case studies as well as smaller, neighborhood-based battles. In the end, all attendees will come away better informed about how preservation works in New York City. A distinguished group of preservationists, educators and community advocates from across New York City’s five boroughs and beyond will address these issues. The Conference consists of two morning presentations and panel discussions with a keynote address the previous evening.

During the Conference, attendees will also hear directly from local advocates who are working directly on preservation campaigns. Selected groups will present relevant projects and programs as part of HDC’s Annual Preservation Fair in the gallery adjoining the Conference auditorium throughout the morning.

Conference dates: 01 March - 03 March
Columbia University Graduate School of Architecture, Planning & Preservation
400 Avery Hall • 1172 Amsterdam Avenue New York, NY 10027
weekly newsletter • 25 february 2013

For more information, visit the HDC website.
**Eagle Hill Institute: Lichens, Biofilms, and Stone Seminar**

Maine's Hancock and Sullivan Counties, with their rocky shorelines and inland hills, are rich with lichen species and biofilms. Buildings and structures made with granite from local quarries host lichens and biofilms. Imported grave markers of granite, marble, slate, and sandstone from other New England states and foreign countries are found in cemeteries, and these markers also host lichens and biofilms. In this seminar, we will study the physical, chemical, ecological, and aesthetic relationships between lichens, biofilms, and stone.

Different lichen species grow on different stone types in different environments. Lichen growth is influenced by a stone's mineralogy and condition, and by the microclimates created by plant cover, open-air exposure, proximity to water, stone orientation, and surface topography. Biofilms also show diversity with their presence on different stone types and in different environments. The interactions between lichens and biofilms and to what extent lichens and biofilms protect or harm stone surfaces from weathering are questions that will be discussed.

We will present lectures on basic lichen morphology and species identification; biofilm "morphology," the role of lichens and biofilms in the environment; basic geology; the history of stone quarrying, finishing, and construction; and the history and contemporary practices of preservation "treatments" for stone. Field trips are planned for forest and shore environments, a granite quarry, a gravel pit, and several cemeteries. We will examine and identify lichens, biofilms, and stones in the field and in the laboratory. We will also examine the impact of surface manipulation of stone (cutting, polishing, and chemical "treatments") and how these impacts may influence (or not) the growth of lichens and biofilms. As a class project, participants will compile a checklist of the lichen species found during the field trips.

We expect participants to represent a wide variety of disciplines and avocations; the pursuit of individual interests will be encouraged. While prior knowledge of lichens, biofilms, or stone will be useful for this seminar, it is not necessary.

Judy Jacob is a Senior Conservator with the National Park Service, Northeast Region, in the New York City Field Office. She works primarily on stone monuments and masonry buildings; evaluating conditions, preparing preservation plans, and executing stabilization and repair treatments. (judithmjacob@yahoo.com)

Michaela Schmull, PhD., is a lichenologist and the Research and Curatorial Associate at the Farlow Herbarium, Harvard University. Her research interests include lichen ecology, biodiversity, and systematics. She has taught classes in plant microscopy, plant identification, and lichens and air pollution. (mschmull@oeb.harvard.edu)

14 July - 20 July
Eagle Hill Institute
Steuben, Maine

For more information, check out the Eagle Hill Institute website.

**International Conference on Metal Conservation**

Historic Scotland are delighted to be hosting Metal 2013, the triennial conference of the International Council of Museums Committee for Conservation Metal Working Group, in Edinburgh from 16th – 20th September 2013.

Here you can purchase tickets, find out more about the aims of the conference, the programme and how to submit papers, as well as information to help you plan your visit to Edinburgh and make it a trip to remember?

Planning for the week is well underway. In addition to a packed programme of presentations throughout the week, there will also be numerous networking opportunities for delegates at our range of evening social events, more details of which can be found in the Programme section. The stunning capital of Scotland, Edinburgh, will make a fantastic backdrop for the event, and you can find out more about getting here, where to stay and how to get around on the plan your visit page.

Tickets for the event can be purchased using our online booking facility. Early bird tickets are available until 1st July 2013 so don't miss out on a great deal, buy your ticket today! There are still conference sponsorship opportunities available to suit all budgets; details are available on the Sponsorship page.

Finally, please contact us with any questions or queries about the event and we will get back to you as quickly as possible.

Conference dates: 16 September - 20 September

Register for the earlybird special at the Metal website.

**Association of Preservation Technology NYC 2013**

“Preserving the Metropolis” will open the discussion on protecting urban cultural heritage in the 21st century by exploring best practices and viable solutions from New York and around the world, all while earning attendees a year’s worth of CEUs.

In addition to presentations with international relevance to cities of all sizes, the conference and related events will provide the opportunity to present lessons learned from one of the oldest international metropolises, and demonstrate why New York City remains a magical and unequalled place to live and visit.

Expecting an unprecedented number of attendees at APT NYC 2013, we have opened up an Advanced Registration that will enhance your chances to secure a spot in your favorite field session and workshop, and allow you to book your room today at the Conference hotel, the Times Square Marriott Marquis.

Advanced Registration includes:

- A basic registration as APT member ($450) or non-member ($550);
- Information to secure your hotel reservation; and
- First opportunity to secure the field session and workshop of your choice when they are announced in the spring, before those choices are available for later registrants (attendees may only pick one field session in 2013).

Conference dates: 11 October - 16 October

Register today at the APT conference website.
APR standards) is severely hampering the development of potential of APR (fueled by the absence of agreed bodies and communities utilizing research findings. The relationship between APR researchers, commissioning bodies and communities utilizing research findings and the communication of research findings and conservation options to the heritage decision-makers.

(1) APR is enhanced by its interdisciplinary nature – the fusion of material and documentary evidence to clarify the structural and decorative development of buildings. The vitality of the discipline and its rapid development is due to the fact that practitioners come from a wide range of backgrounds; architectural conservation, fine art conservation, decorative painting, paint manufacturers, and material science. Previous conferences have discussed the consequences of the lack of baseline standards for conducting APR studies.

(2) Another important issue is the often problematic relationship between APR researchers, commissioning clients and communities, and the communication of research findings and conservation options to the heritage decision-makers.

(3) The recognition of ‘multiple values’, ‘intangible heritage, and the empowerment of local communities worldwide to make heritage decisions, places a new obligation on APR researchers to inform and educate the decision makers.

Papers and posters are invited from APR practitioners, researchers, statutory bodies, commissioning clients and end-users of the research findings. We seek papers that address the following themes:

Please send abstracts to kathrin.degerblad@raa.se. No more than 500 words please. No images will be required at this stage. After peer reviews in March/April and June/July, the papers will be selected at the end of July. Notification along with guidance notes for the full paper will be sent by email before July 30, 2013. Full Texts will be required by September 17. Images are limited to 10 per paper. After peer review the deadline for final papers will be December 17. Only delivered final papers can be presented at the conference and will be published.

Abstract deadlines: Tuesday, 05 March

Further information can be found by visiting www.raa.se

This conference brings together university researchers, professionals and policy makers to illustrate and discuss the most pressing issues concerning the conservation of archaeological, architectural and urban landscapes. In particular, the main goal of the conference is to discuss multi-disciplinary researches on complex Cultural Heritage sites, ranging from archaeological ruins, historical architecture and centers.

General and thematic discussions on architectural and archeological Heritage are both encouraged, by taking into account the different points of view of researchers who are engaged in the enhancement of knowledge and practice, and professionals in charge of safeguarding.

Keynote speakers will present case studies representative of challenges and solutions adopted for the analysis, conservation and management of sites. The main topics of the Conference are:

- new methodologies for intervention, preventive conservation and maintenance;
- sustainable management, fruition and promotion of built heritage;
- development of guidelines and best practices.

Papers about the main topics of the Conference are welcome. A 500 word abstract should be submitted by 15 March 2013.

Selected papers will be accepted as oral or poster presentations by 15 April 2013.

The accepted papers will be included in the online Conference Proceedings, for which a 4-8 page contribution should be submitted by the 15 July 2013.

Abstract date: 15 March 2013
Conference dates: 18-20 November 2013

For more information, visit www.bh2013.polimi.it
**APT NYC 2013 Call for Abstracts**

You are encouraged to submit an abstract for consideration, to become a speaker at APT NYC 2013. Speakers enjoy a reduced rate for the Conference as well as high visibility before an expected audience of 1,000 preservationists from around the world. Student Scholars receive a full APT Charleston 2012 Conference registration and a complimentary one-year APT membership, in addition to mentoring from an APT Fellow.

**Professionals**

Abstracts for 20 minute papers or demonstrations by one or two speakers should be 400–600 words in length. Abstracts for panel sessions of 75–85 minutes (plus 20–30 minutes discussion and questions) with a moderator and three or four speakers must include abstracts for each presenter that are 400-600 words in length and include a description of each presenter's role.

**Students**

Selected Student Scholars will prepare an electronic presentation (i.e. PowerPoint) based on the abstract topic. Each scholar will be included as a Conference presenter and deliver a 5- to 10-minute oral presentation and answer questions as part of a Conference paper session. Student scholars will be required to follow specific criteria when designing their electronic presentations, helped along by an assigned mentor from the APT College of Fellows.

**Download the Call for Abstracts**

Deadline: 22 February. Notification of acceptance of abstracts will be made in April 2013.

**Students**

Selected Student Scholars will prepare an electronic presentation (i.e. PowerPoint) based on the abstract topic. Each scholar will be included as a Conference presenter and deliver a 5- to 10-minute oral presentation and answer questions as part of a Conference paper session. Student scholars will be required to follow specific criteria when designing their 5- to 10-minute oral presentation and answer questions as part of a Conference paper session.

**Download the Call for Student Abstracts**

Deadline: Sunday, 31 March

Notification of acceptance of abstracts will be made in spring 2013.
William Randolph Hearst Foundation Fellowship 2013

The Mount Vernon Hotel Museum and Garden (MVHM) offers two summer Fellowships for undergraduate or graduate students interested in U.S. history, museum studies, museum education, material culture or other related fields. Fellows participate directly in the daily operations of a historic site in many departments. Students engage in original historical research related to the Museum’s interpretation and programs. Now in its twenty-ninth year, the William Randolph Hearst Foundation funds the Fellowship Program. The appointment is full-time for nine weeks during June and July and carries a $2,750 stipend. The hours are 9AM-5PM Monday-Friday, with occasional evenings required for special events. Throughout the summer, Hearst Fellows: complete an original research project on an aspect of NYC life between 1826 and 1833; conduct tours of the Museum’s eight period rooms and garden; participate in all aspects of the Museum’s summer activity program for children; assist with the Museum’s winter public programs; contribute to daily operations.

Applicants are strongly encouraged to visit the Museum’s website before applying for a Fellowship. All applicants must be enrolled in a college undergraduate or graduate program for both Spring and Fall of 2013. Fellowship applications may be downloaded from the website or obtained via e-mail from education@mvhm.org. To apply for the Fellowship, students must submit the completed application form, a short essay explaining their interest in the Fellowship, a resume, architectural history or a related field.

The fellowship pays $4,000, commences in June, and requires a commitment of 35 hours per week.

Applications due: 20 March

Please submit resume and cover letter (e-mail preferred) to: Michael Owen, Community Outreach Coordinator. The Mount Vernon Hotel Museum and Garden, 1 Centre Street, 9th Floor North, New York, NY 10007 mopwen@lpc.nyc.gov.

Application deadline: Friday, 08 March

Find more information about this fellowship on the MCHM website.

LPC: Adolf Placzek Fellowship

The New York Landmarks Preservation Foundation, in conjunction with the New York City Landmarks Preservation Commission, is pleased to announce a fellowship position for Summer, 2013. This paid fellowship is an eight-week position at the Landmarks Preservation Commission, open to graduate degree candidates in historic preservation, architecture, architectural history or a related field.

The Fellow will have the opportunity to learn about all aspects of the Commission’s work, including: regulation, enforcement, designation, and community outreach. Specific responsibilities will depend upon the Commission’s workload, but will focus on the regulatory work of the Commission with a particular concentration on the permit application process.

The fellowship pays $4,000, commences in June, and requires a commitment of 35 hours per week.

Applications due: 20 March

Please submit resume and cover letter (e-mail preferred) to: Michael Owen, Community Outreach Coordinator. The Landmarks Preservation Commission, 1 Centre Street 9th Floor North, New York, NY 10007 mopwen@lpc.nyc.gov.

Application deadline: Friday, 08 March

Find more information about this fellowship on the MCHM website.

TCLF Sally Boasberg Fellowship

The fifteen-year old TCLF is the only not-for-profit in America dedicated to increasing the public’s awareness and understanding of the importance and irreplaceable legacy of its designed landscape legacy. The Fellowship honors the late Sarah S. (Sally) Boasberg, a founding TCLF Board Member, devotee of horticulture and great landscape design, and unrelenting advocate for education. The position, which is paid and includes housing, is available for 8-12 weeks between June and September, with a final schedule determined in consultation with the successful candidate.

The Boasberg Fellow would participate in TCLF’s various programs, including What’s Out There, Landslide, and Pioneers of American Landscape Design Oral Histories. Specific tasks include writing and text editing, research, photography and photo editing, Website management, basic graphic design, and event planning. Good writing skills and attention to detail are essential for the job.

Compensation Details: $10/hour, at least 24 hours per week requested, full time available. Housing is provided at the Boasberg home in Northwest Washington, DC, located near Connecticut Avenue, NW and DC’s Metro system.

Education Requirements: Landscape Architecture or Historic Preservation Student or Alum preferred. Other relevant degrees or experience will be considered.

Applications will be considered.

Please send application materials, questions or comments to Courtney@tclf.org. Phone interviews and hiring decision in April.

Application deadline: Sunday, 31 March

More information on the TCLF website.
FELLOWSHIPS & GRANTS

2013 Rudy J. Favretti Fellowship
Carter Hall, Millwood, VA

Carter Hall was the home of Col. Nathaniel Burwell, great-grandson of Robert “King” Carter of historic Carter’s Grove in Williamsburg. The Shenandoah Valley plantation house was completed in 1797, by which time Burwell’s land holdings had increased to over 8,000 acres.

Program: Fellows will spend a period of three months researching and documenting their respective historic sites. Each Fellow will produce a written history and existing conditions drawing, both of which will be published online as well as archived into the ongoing collections of the Garden Club of Virginia.

Qualifications: Applicants must be candidates for a master’s degree in landscape architecture, historic preservation, landscape or architectural history, archaeology, or horticulture.

Stipend: Each Fellow will be paid a stipend of $6,000 plus certain living expenses for a three-month period of work. Housing will be provided within the proximity of each Fellow’s project site. Fellows are expected to provide their own transportation during the Fellowship, but will be reimbursed for pre-approved project-related travel expenses, including daily travel to and from the site.

Application deadline: 01 April
Fellows will be selected and notified by April 15th.

Apply and learn more about this unique opportunity at: www.gcvfellowship.org

2013 William D. Rieley Fellowship
Reynolds Homestead, Critz, VA

The Reynolds Homestead was the birthplace and boyhood home of tobacco manufacturer R. J. Reynolds, founder of the R.J. Reynolds Tobacco Company. His grandfather, Abraham Reynolds, purchased the original fifty acres in 1814 for $100. Situated at the foot of No Business Mountain, the property was traversed by the Norfolk Bristol Turnpike, once a major east-west route. Blue Ridge plateau; it is the farthest west that bright leaf tobacco can be grown.

Program: Fellows will spend a period of three months researching and documenting their respective historic sites. Each Fellow will produce a written history and existing conditions drawing, both of which will be published online as well as archived into the ongoing collections of the Garden Club of Virginia.

Qualifications: Applicants must be candidates for a master’s degree in landscape architecture, historic preservation, landscape or architectural history, archaeology, or horticulture.

Stipend: Each Fellow will be paid a stipend of $6,000 plus certain living expenses for a three-month period of work. Housing will be provided within the proximity of each Fellow’s project site. Fellows are expected to provide their own transportation during the Fellowship, but will be reimbursed for pre-approved project-related travel expenses, including daily travel to and from the site.

Application deadline: 01 April
Fellows will be selected and notified by April 15th.

Apply and learn more about this unique opportunity at: www.gcvfellowship.org
New York Historical Society
WWII & NYC

Don't miss the museum experience that tells the war stories of our greatest city and generation.

World War II affected the entire nation as husbands, sons, fathers and brothers left their homes and traveled to far off lands. Some never came back. Meanwhile, their families held the nation together and experienced war bond drives, rationing, blackouts, and shortages of gasoline, nylon, and fresh eggs.

Discover. Explore. Experience. See how the landscape changed as the city acquired a martial air; defenses in the harbor were strengthened, old forts updated, and docks became high security zones.

Hear first-hand accounts from the people who lived through it. It's history that speaks to you. Learn about the raucous men in uniform celebrating their last stateside moments, tearful families embracing husband and sons heading for unknown destinations, women with lunch pails off to work, celebrity-studded war bond rallies and stage door canteens.

Exhibition until 27 May 2013

New-York Historical Society
170 Central Park West

Inquiry HP Lecture Series: Witold Rybczynski

How Architecture Works, A Humanist’s Toolkit
A Lecture by Witold Rybczynski

Modern architecture runs the gamut from fantasy to engineering to retro. Witold Rybczynski, whom Library Journal has called “one of our most original, and stimulating writers on architecture,” joins us to discuss his upcoming book, How Architecture Works, and the rich and varied world of contemporary design. Taking us behind the scenes, he shows how architects as different as Frank Gehry, Renzo Piano, and Robert A. M. Stern work their magic.

Rybczynski, who was awarded the Vincent Scully Prize for his architectural writing, offers a humanist’s toolkit for understanding our built environment and seeing it afresh. “Architecture, if it is any good, speaks to all of us,” he writes.

Witold Rybczynski has written about architecture for the New Yorker, The Atlantic, the New York Times, The New Yorker, and stimulating writers on architecture,” joins us to discuss his upcoming book, How Architecture Works, A Humanist’s Toolkit

WALKING TOURS & LECTURES
Preservation Society of Newport Winter Lecture Series

The Craftsmen Community in Newport
Alice Dickinson, Decorative Arts Fellow
Wednesday, February 27 at 11:00am

Prominently situated in the historic Point District, Hunter House (1748) exhibits the work of some of the most important 18th century Newport craftsmen. Using the Hunter House collection of outstanding Townsend-Goddard furniture, this illustrated lecture will examine the social connections of artisans through the objects they created.
Preservation Society Members Free / Non-members $5

Research: Newport’s Historic Urban Plan Project
Wednesday, March 6

Join us for a presentation explaining Newport’s maps in detail and hear the latest news on this ongoing research project. Funded by a grant from the Rhode Island Council for the Humanities, the Preservation Society has been conducting extensive research examining the historic urban plan of Newport from its initial settlement in 1638 to the present day.
Admission Free

Preservation: Restoring a Double Architectural Icon: Notre Dame de Paris
Thursday, April 11 at 11:00am

Benjamin Mouton, Chief Architect of Historic Monuments Paris, France Since its completion in the 13th century, Notre Dame de Paris has been celebrated as one of the landmarks of French Gothic architecture in Europe. Join us for a lecture that will explore the rich history of this iconic monument, highlighting its conservation and restoration.
Preservation Society Members Free / Non-members $5
Central Park Conservancy
Outdoor Sculpture Conservation

The Central Park Conservancy (CPC), with grants from The Charles Evans Hughes Memorial Foundation, Inc. and the New England Society in the City of New York, is offering summer positions in outdoor sculpture conservation.

Applicants must be active graduate students or recent master's-level graduates in historic preservation or objects conservation. Applicants must possess a current United States issued driver's license or equivalent and must be physically able to lift 50 lbs.

This summer, the technicians will conduct routine maintenance on the collection, cleaning each piece with medium pressure water washing and applying a sacrificial wax coating to protect the bronze. They will also conduct condition assessments on each of the monuments and document their findings in a database. Technicians will gain valuable knowledge about materials and outdoor corrosion processes in an urban environment. They will receive technical training in areas such as application of patina, finishes and coatings, and restoration and conservation techniques, while working on a wide variety of sculptural and architectural features of various materials, age, condition and conservation needs. Special projects include: Cleopatra’s Needle, Cannon and Carrodone, Bethesda Terrace, Pulitzer Fountain, Sherman Monument, Mosaic Maintenance, Polish King

The summer conservation program will begin on Monday, June 3rd and concludes on Friday, August 9th, 2013, starting at 7am-3pm. Pay is approximately $14 dollars per hour. Interested candidates should respond with a cover letter and C.V. or resume to M.C.Reiley at mreiley@centralparknyc.org

York Glaziers Trust Training Opportunity

With the support of the York Minster Fund, the York Glaziers Trust, Britain’s oldest and largest specialist stained-glass conservation studio, is seeking to recruit an apprentice conservation glazier. The person appointed to the two-year apprenticeship will join a dedicated team currently engaged upon the conservation of York Minster’s Great East Window, one of the most exciting and ambitious conservation projects of its kind in Europe. Starting salary will be $14,500, depending upon qualifications and experience. For further information and an application form, contact info@yorkglazierstrust.org or telephone 01904 557228.

Application deadline: Friday, 01 March
Interviews will be held in York on Thursday, 14 March
For more information about the Trust see www.yorkglazierstrust.org

Old Salem Museum & Gardens Internship

This internship offered by Old Salem Museums & Gardens is underwritten by the National Society of Colonial Dames of America in North Carolina. The internship is directed at graduate students in museum studies, American history, historic preservation, historic architecture and archaeology. Activities will focus on aspects in the Old Salem National Historic Landmark District in Winston-Salem, North Carolina, where the Colonial Dames owns the oldest surviving building, the 1768 Fourth House.

Position: The Intern will work approximately 37.5 hours per week, 8:30am to 5:00pm Monday through Friday, except for institutional holidays. The internship will last 10 weeks with flexibility beginning in May or June. The internship is a full-time staff position for 10 weeks at Old Salem Museums & Gardens, taking place during the summer of 2012. The intern will be selected by Old Salem staff on a competitive basis.

Responsibilities: Research will be focused on the historic Town of Salem, under the supervision of the Director of Architecture. Specific research projects will be based on the best fit of potential topics to the interest and skills of the intern. Other activities may include assisting in ongoing functions to manage the research materials of the museum, such as helping with digitization of images and architectural drawings.

Requirements: Currently enrolled in, or recently graduated from, a graduate program in history, public history, historic preservation or similar field. Priority will be given to graduate students who are enrolled in North Carolina colleges and universities. Responsible, reliable and dedicated to quality of job performance. Good research skills in primary materials. Good computer skills with basic office applications, knowledge of CAD or GIS software are a plus. Able to pass a drug test and background check

Compensation: A $2,500 stipend is offered along with available housing at the museum. Payments will be paid on a biweekly payroll basis.

Applicants should submit a letter of interest with proposed schedule, resume, Old Salem employment application, and two letters of recommendation in hard copy by USPS, or electronically with documents in PDF to:
David Bergstone, Director of Architecture
Old Salem Museums & Gardens
600 S. Main Street
Winston-Salem, NC 27101
(336) 721-7341
dbergstone@oldsalem.org

Application deadline: 15 March 2013
For more information, visit the Old Salem website,
### U.S. Embassy In Lima Internships

**Metal And Ceramic Conservation Project**

Sicán National Museum

The intern will work in cooperation with museum staff on the conservation and restoration of ceramic and metal objects (copper pieces). Interns will also have the opportunity to work directly on the objects and learn more about the daily activities in the museum, the wealth and diversity of its collection, and the many materials and methods used to solve preventive conservation problems in exhibition and storage areas under Ferreña’s climatic conditions. Throughout the internship, the intern will work on three specific tasks:

- Intern becomes familiar with archaeological materials from the Peruvian Northern Coast through the selection and/or ordering of materials located in the storage room.
- Conserve and restore the selected pieces (ceramic) in the museum laboratory spaces.

**Number of internships:** One intern for two months from July 1 to August 31, 2013.

**Costs:**

- The Museum will cover the cost of housing.
- Intern will share a room with other interns and the archaeologist’s family. The intern will be expected to share family life and meals with the family. The American Embassy will provide the materials needed for the internship and $350 total for meals. The student should cover other costs such as airfare, international tickets to Chiclayo, medical insurance.

**Applicants:** Applicants must be American citizens currently enrolled in a graduate program in conservation, restoration, archaeology, museum studies. Intermediate to advanced level Spanish language skills, as well as experience in the field, are required.

**Registration and Cataloguing Project**

San Marcos University Archaeological Museum

The interns will exchange ideas, concepts, and experiences on the most appropriate registration, managing, and storing techniques. Interns will have the opportunity to learn more about the reality of Peruvian museums, the wealth and diversity of their collections, and the many methods used to register and catalogue the archaeological collection. Throughout the internship, the intern will work simultaneously on three specific tasks:

- Select a group of archaeological pieces from the museum’s storage that need registration and cataloguing. Most of the pieces are ceramic and metal.
- Meet with the supervisor to determine the materials, equipment, and terminology to be used in the cataloguing of the pieces.
- Register and catalogue selected materials.

**Number of internships:** One intern for two months from July 1 to August 31, 2013.

**Costs:**

- The Museum will cover the cost of housing.
- Intern will share a room with other interns and the archaeologist’s family. The intern will be expected to share family life and meals with the family. The American Embassy will provide the materials needed for the internship and $350 total for meals. The student should cover other costs such as airfare, international tickets to Chiclayo, medical insurance.

**Applicants:** Applicants must be American citizens currently enrolled in a graduate program in conservation, restoration, archaeology, museum studies. Intermediate to advanced level Spanish language skills, as well as experience in the field, are required.

**Ceramic Conservation Project**

Sicán National Museum

The intern will learn about the ceramic conservation techniques used in the museum and apply them in the conservation of fifteen artifacts from the Chavin culture. The internship will include the following:

- Identify and evaluate the ceramics to be intervened. Study the registration cards and research their history, style, and techniques, in order to learn more about the Chavin culture and the context in which they were excavated.
- Diagnose and assess the conservation state of the ceramics by identifying deterioration and structural agents and specifying the conservation actions needed. Prepare a report on the state of conservation and conservation processes needed, including drawings and photographs of each ceramic.
- Conserve and restore the ceramics following the previous assessment. Work will include preliminary exams of acidity, resistance and color; restitution of fragments with Paraloid B72 at 50%, mechanical cleansing and washing; and surface treatment.
- Restore and consolidate the ceramics to provide stability and adequate conservation. Student will prepare a final report.

**Number of internships:** One intern for two months from July 1 to August 31, 2013.

**Costs:**

- The Museum will cover the cost of housing.
- Intern will share a room with other interns and the archaeologist’s family. The intern will be expected to share family life and meals with the family. The American Embassy will provide the materials needed for the internship and $350 total for meals. The student should cover other costs such as airfare, international tickets to Chiclayo, medical insurance.

**Applicants:** Applicants must be American citizens currently enrolled in a graduate program in conservation, restoration, archaeology, museum studies. Intermediate to advanced level Spanish language skills, as well as experience in the field, are required.

**Museography, Registration and Conservation**

Royal Tombs Of Sipan Museum

The intern will work in the registration, museography and preventive conservation of mural fragments and textiles of the museum collection, found in the archaeological sites El Chorro, Huaca Santa Rosa, Ucpe and Huaca Rajada.

- **Storage:**
  - Work with the archaeological material from the sites of Sipan, El Chorro, Santa Rosa and Ucpe presently stored at the Tumbas Reales Museum deposit rooms. This material needs to be registered, cleaned and repacked with acid free paper. The storage room will need to be reorganized, placed proper labels and photographs on each box. Some furniture will need to be replaced and covered with plastic cardboard among other materials for protection.
- **Preventive conservation:**
  - Intern will take into consideration preventive conservation measures to guarantee the integrity of the objects. Work will include cleaning metal objects, bones and textiles in deposit areas to prevent further deterioration. Work will also include insect control.

---

**Sicán National Museum**

**San Marcos University Archaeological Museum**

**Royal Tombs Of Sipan Museum**
U.S. Embassy In Lima Internships

- Conservation of mural and textile fragments:
Conservation and analysis of mural fragments and textiles from excavation sites. The mural fragments were found intentionally destroyed as part of a ritual practice in Ucupe. These fragments need to be conserved, analyzed and reclassified to try to determine the iconography represented. A set of twelve textiles found in Huaca Santa Rosa need to be cleaned, conserved and registered.

Number of interns: One intern with experience in registration from July 1 to August 29, 2013. One intern with experience in preventive conservation techniques from July 1 to August 29, 2013.

Costs: The Museum will provide the materials needed for the performance of the project. The museum will not be able to provide lodging. The American Embassy will provide the materials needed for the internship; $850 total for meals and incidentals for the time period. The university or student should cover other costs such as roundtrip international and in-country tickets, medical insurance, lodging, and meals and incidentals.

Applicants: Applicants must be Spanish-speaking American citizens currently enrolled in a graduate program in conservation, museography, restoration and/or museum studies. Experience in the field is required.

Application procedures:
Interested candidates should submit a cover letter with the following information:
- Name of applicant, name of specific internship program, name of current graduate program, honest assessment of Spanish ability which may be corroborated in a phone interview
- Please also attach current curriculum vitae, a one-page essay explaining interest in the internship, and a letter of recommendation by a professor.

Send the above information to the attention of Vanessa Wagner de Reyna, wagnerv@state.gov.

Students will be notified if they have been accepted by mid-April. The Embassy will then provide additional information regarding travel, visas, and other requirements to the selected interns.

Application deadline: 30 March 2013

For more information on all Peru internships, visit the Embassy of the US in Lima Peru website.

Building Conservation Associates Internship

Building Conservation Associates, Inc. is accepting applications for preservation and conservation internships for the summer of 2013.

BCA is a consulting firm that specializes in both the technical and historical aspects of restoring buildings and works of art. BCA also assists clients with applications to local landmark agencies and in the preparation of federal rehabilitation tax credit applications and National Register nominations.

BCA’s approach to conservation is pragmatic, combining field documentation, archival research, materials testing, and scientific research to satisfy project requirements without compromising quality. BCA interns are actively engaged in project-related activities such as archival research, site surveys, report writing, drawing preparation, and construction administration tasks.

BCA is headquartered in New York City, with offices in Dedham, Massachusetts and Philadelphia, Pennsylvania. This placement will be at our New York office.

Please email a letter of interest, resume, and writing sample to Claudia Kavenagh, Director at ckavenagh@bcausa.com

Applications deadline: 28 March

Walter Sedovic Architects

Walter Sedovic Architects. Internationally renowned, award-winning firm dedicated to sustainable preservation, environment & community. WSA is seeking a graduate with extraordinary communication skills, both verbal & graphic to fill a position in marketing, developing & management. This is a unique opportunity to apply your preservation skills to a wide variety of inter-related activities, including business development & growth, marketing campaigns, public & client relations, media & presentations, research and day-to-day office management. Salary and hours are negotiable. This position is in our Irvington, NY offices.

Send resume, letter of interest and references via email: Jill H Gotthelf AIA FAPT, Principal jhgotthelf@modernruins.com

No phone calls, please.
Fallingwater Preservation Internship

Fallingwater, the architectural masterwork designed by Frank Lloyd Wright, is seeking a summer intern to work with the Director of Preservation.

Location: This internship is located in rural Mill Run, PA. Having a vehicle would be helpful as there are no stores or amenities within walking distance.

Job Description: This is a unique opportunity to work at a world-renowned architectural site. The preservation intern will be involved in a variety of tasks related to the restoration and maintenance of the historic buildings at Fallingwater. This includes Fallingwater, Frank Lloyd Wright’s masterpiece, and a variety of other historic structures throughout the 5,000 acre Bear Run Nature Reserve. The internship’s primary focus is hands-on masonry restoration of Fallingwater, involving stone re-pointing, cement plastering, and concrete patching. The student will also participate in other preservation projects throughout the summer, such as historic building assessments, inventories, documentation, and miscellaneous preservation repairs. The intern works under the supervision of the Curator of Buildings and Collections.

Qualifications: We are looking for a graduate student with education or background experience in historic preservation, historic building trades, or architectural history and experience in assessing and documenting historic structures. A candidate with hands-on experience in historic masonry or plastering or a related field is preferred.

Pay: This is a paid internship plus free, shared, on-site housing.

Application process: To apply send resume, cover letter and two letters of reference to wpcjobs@paconserve.org and list Preservation Intern in the subject line.

Application deadline: 01 April

Duration: Summer of 2013

Pennsylvania Historical & Museum Commission Apprenticeship

Become part of a large and growing sector of the construction industry preserving Pennsylvania’s treasured historic buildings.

The Pennsylvania Historical and Museum Commission (PHMC) is sponsoring its 8th annual summer apprenticeship program to introduce students and recent graduates of post-secondary trade schools, technical colleges and other training programs and others with building trades experience, to the preservation and traditional building trades needed to preserve Pennsylvania’s historic places.

PHMC and several partner organizations and companies will be offering paid apprentice positions for 12 weeks in the summer of 2013 at locations throughout Pennsylvania. The apprenticeships will include a free training program with an introductory one-day seminar in historic preservation and two days of hands-on training by master craftsmen in various preservation and traditional trade skills.

Interested students should review the list of positions and contact the representative for those they are interested in for more information or to schedule an interview. All hiring decisions are the responsibility of the company or institution hosting the individual apprenticeship. The hiring period will end on April 30.

For general information on the program contact Joe Lauver, Pennsylvania Historical and Museum Commission, by phone at 717-775-6242, FAX at 717-214-2988 or email at jlauffer@pa.gov.

To find more info about apprenticeships, check the PA Historical & Museum Commission website.

Duration: 12 weeks

Application deadline: 01 April

Wage: $12.00/hour

Location: This internship is located in rural Mill Run, PA. Having a vehicle would be helpful as there are no stores or amenities within walking distance.

Position Description: Apprentice will engage in all aspects of log and timber frame restoration at projects throughout central Pennsylvania.

Contact: The Country Homestead / Historic Restorations, PO. Box 188, Kreamer, PA 17833 Frank E Strick, (570) 374-7122

Jamison Masonry Restoration, LLC

Location: Oreland, southeastern PA

Wage: $12.00/hour

Position Description: Apprentices will work on a diverse range of masonry restoration projects including re-pointing, and stone and brick facade restorations.

Contact: Jamison Masonry Restoration, LLC., 150 Roesch Avenue, Oreland, PA 19075

Stephen Weihing, Human Resource Manager (215) 884-6600, hr@jamisonmasonry.com

Pennsylvania Historical & Museum Commission Preservation Construction Section

Location: Daniel Boone Homestead, Birdsboro, Berks

Wage: $12.00/hour

Position Description: This apprenticeship will provide an opportunity to learn about historic preservation and the traditional trades through fieldwork, shop work, research and other project work under the supervision of master preservation craftsmen. The areas of work will emphasize historic preservation and traditional carpentry skills, but may include historic masonry restoration and other trades.

Contact: Daniel Boone Homestead, 400 Daniel Boone Road, Birdsboro, PA 19508

Jim Houston, Preservation Construction Specialist (610) 404-0393, jahouston@pa.gov

Planting Homeward’s Roots

T will be held on May 10, 2013 from 10:00 AM to 12:00 PM at the Pennsbury Agricultural Education Center, 2145 Easton Road, Upper Black Eddy, PA. The event is free and open to Candlewinding, primrose and candle plant care for the home environment. The event is sponsored by the Upper Delaware Council of Garden Clubs, the Delaware Valley Chapter of the American Hymenoptera Association, and the Delaware Valley Beekeepers Association.

For more information, contact Lorraine Freshour at (610) 780-5050 or lagarden@comcast.net.
Pennsylvania DOT Cultural Resources Management Internship

PennDOT’s Cultural Resource Management Program will offer internships in cultural resource management and historic preservation at the Central Office in Harrisburg, Pa., and in Indiana, Pa., at Indiana University of Pennsylvania. Interns will be directly involved in important research on the management, study and stewardship of archaeological sites and historic resources affected by transportation projects. They’ll also be exposed to the full range of job skills and employment opportunities in Cultural Resource Management through formal seminars and rotations in GIS, curation, archaeological field work, project assessment, consulting, environmental review, and National Register evaluation.

Our internships, part of the Department’s Engineering, Scientific and Technical Internship Program (ESTI) pay $11.54/hour and undergraduate or graduate credit may be available through your university department. Preference will be given to applicants and field experience in the Middle Atlantic region. Applicants should have excellent communication skills, be detail oriented and have the ability to work and think independently. Graphic design and website skills are a plus.

Interns are expected to invest at least nine months to a position and compensation can be discussed. Interested applicants should send their resume and letter of interest to Liz Waytkus at liz.waytkus@docomomo-us.org.

DOCOMOMO US Internship

Docomomo US is looking for interns to assist in all areas of advocacy, education and administration. Intern responsibilities include event coordination, marketing, membership, external communications and social media. Interns assist in the production of the electronic newsletter and are encouraged to develop research articles to be included in the monthly publication. Previous arts administration knowledge or applicable work experience is preferred but not necessary. Applicants should have excellent communication skills, be detail oriented and have the ability to work and think independently. Graphic design and website skills are a plus.

Interns are expected to invest at least nine months to a position and compensation can be discussed. Interested applicants should send their resume and letter of interest to Liz Waytkus at liz.waytkus@docomomo-us.org.

New Jersey Interpretive Specialist I

New Jersey Interpretive Specialist I Historic Resources

Open to residents of: New Jersey

Requirements:

Education: Graduation from an accredited college or university with a Bachelor’s degree in History, American History, Art History, Architectural History, American Studies, American Literature, or Museum Studies. Please submit a copy of your transcript with your application. Failure to do so will result in ineligibility.

Experience: One (1) year of experience in the research and preparation of historic resource information, the implementation of historical resource programs or, the planning, preparation and care of exhibits of objects of artistic or historic value.

Note: A Master’s Degree in History, American History, Architectural History, American Studies, American Literature, Museum Studies or closely related field may be substituted for the one (1) year of experience. If you are substituting education for experience, please submit a copy of your transcript with your application. Failure to do so will result in ineligibility.

Foreign transcripts must be evaluated by a recognized evaluation service. Please submit a copy of your evaluation with your application. Failure to do so will result in ineligibility.

Appointeet may be required to be bonded by an appropriate agency dealing with artifacts and collections.

License: Appointees will be required to possess a driver’s license valid in New Jersey only if the operation of a vehicle rather than employee mobility, is necessary to perform the essential duties of the position. The responsibility for ensuring that employees possess the required motor vehicle license, commensurate with the class and type of vehicles they operate, rests with the Appointing Authority.

Special note: Only on-line applications will be accepted for this announcement. Please disregard the first sentence in #2 under IMPORTANT INFORMATION below. You must select the online application option for this announcement.

SAVE ON POSTAGE! GO PAPERLESS! RECEIVE IMMEDIATE CONFIRMATION THAT YOUR APPLICATION HAS BEEN RECEIVED! You can now file an application for this examination on-line. Visit the Civil Service Commission website at http://info.csc.state.nj.us/Vats/JobView.aspx. You can now complete and submit your application and payment on-line to the Civil Service Commission and you will receive an immediate receipt confirmation!
Scientific Aspects of Art Conservation
July 8 - 28, 2013
DR. RICHARD WEISS (Georgetown University)

The Scientific Aspects of Art Conservation summer program is an exceptional experience exposing students to conservation techniques on artworks. This 3-credit, hands-on course focuses on analyzing the historical formulation of paints and surfaces for painting; on the conservation problems facing aging works of art (including past and recent environmental factors), and on modern methods for conserving old works of art. Students will explore the differences between conservation science and art restoration. Florence and its vicinity are a perfect laboratory for such a course.

The program is open to all qualified undergraduate and graduate students who have completed 2 semesters of college-level Chemistry or the equivalent. No background in art history is necessary, but an appreciation for art is beneficial. This is a great option for pre-med students and other science majors who may have trouble finding coursework in the sciences abroad.

Program participants will live at Villa Le Balze, an historic estate in Fiesole (Florence) Italy and visit many major monuments and museums in downtown Florence as well as art conservation laboratories and restoration studios.

Application deadline: Friday, 01 March
Applications and additional information may be found at the Villa Le Balze website or contact Karen Wardzala (klw45@georgetown.edu)

Prague, Czech Republic Summer Session II 2013
Transportation and Land Use Policy and Practice PSC/GEOG, 400/600-level, 3 credits, taught in English

Students will examine the way community design in the form of transportation systems, housing, downtowns, and public spaces play out in Prague and Kladno and make comparisons to cities in Europe and the US. Prague of er lessons with its use of public spaces and old and newer town planning in the city as well as the transportation and other major infrastructure development from the medieval to the renaissance and the contemporary era. In addition to tours and i eld trips in Prague, students will engage in a case study of a local community, Kladno. Students will visit Kladno and examine, from a planning perspective, the city's transformation from an outlying agricultural town, to an important industrial center, and now a modern town that preserves its traditional identity with past and post war dif erences evident in its modern construction and reconstruction. Additionally, students will consider the impact of history, political processes, regional planning, and national economic forces on planning outcomes in the Czech Republic.

Application deadline: Wednesday, 01 May
For more information: http://usac.unr.edu or contact Susan Mason directly at susanmason@boisestate.edu

Victorian Society in America Summer School
VSA NEWPORT SUMMER SCHOOL
May 31 - June 9, 2013; Tuition: $2,300

This ten-day course is a comprehensive survey of Newport and its remarkable collection of 17th-early 20th century architecture. Richard Guy Wilson, renowned author, lecturer, and the University of Virginia’s Commonwealth Professor and Chair of Architectural History, leads the course. Wilson and his distinguished guest lecturers discuss the histories of architecture, interiors, landscapes, city planning, preservation, and society in and around Newport. Participants visit public and private buildings, with behind-the-scenes access to some of Newport’s most celebrated summer cottages, from McKim Mead and White’s Isaac Bell House (1883) in the shingle style, to Richard Morris Hunt’s The Breakers (1895), the palatial showplace of Cornelius Vanderbilt II. The program is based at Salve Regina University, a leader in architectural restoration and adaptive re-use.

VSA LONDON SUMMER SCHOOL
June 29 - July 14, 2013; Tuition: $4,500

This course provides a comprehensive survey of Victorian and Edwardian architecture, interior design and decorative arts, through lectures and in-depth visits to sites including William Morris’s Red House (1859) and the Palace of Westminster. The history of London and issues of preservation and restoration of historic buildings are also addressed. A highlight is the mid-course tour of Birmingham, Liverpool, and Manchester. The course is lead by Ian Cox, Director of the London Art Course at Christie’s Education, and eminent architectural historian, Gavin Stamp, and his team of adjunct lecturers, including architecture and decorative arts expert Alan Crawford.

How to apply: Graduate students, academics, professionals, and enthusiasts interested in museum, art, architecture, and design professionals are encouraged to apply. Generous scholarship assistance is available for qualified applicants. Details of this year’s programs, scholarship assistance, and application instructions and forms are available at Victorian Society website.
Architectural Restoration Field School

Thomas Jefferson’s Poplar Forest announces its 2013 Architectural Restoration Field School. The intensive two week program will be held from May 28-June 8. The program provides an overview of the philosophy, process, and techniques for museum-quality architectural restoration and conservation. People from any background and discipline may qualify. The program is limited to 10 participants each year. Components include: the history of Thomas Jefferson and his villa retreat; architectural investigation, documentation, restoration and interpretation. More information can be found on the web site: or contact Travis McDonald (434) 534-8123, travis@poplarforest.org. Application deadline: 26 April

The Croatia Conservation Field School

Summer 2013: June 21 to July 19

The Croatia Conservation Field School offers a unique look at the vernacular culture of Croatia’s Central Dalmatian Coast. The Field School is an intensive program that allows students to gain hands-on experience in a culturally rich setting. Students will explore villages, while learning the history of the area, documenting and analyzing important structures, and participating in a hands-on building project. The program is open to undergraduate and graduate students and is primarily intended for students in historic preservation, architecture, landscape architecture and other related fields. Students participating in this program will be registered at the University of Oregon and will receive 9 UO credits for courses taken in Croatia.

Sites: The field school is ideally situated in a heritage-rich region of the Dalmatian Coast of Croatia. The program includes a week in Trogir, a World Heritage Site and a week on the island of Brac, where activities will be centered at the famous stone carving school, Klesarska Skola. The focus there is learning how to dress stone and taking part in traditional dry-stone building exercises. Two weeks are spent working with a local NGO in Radosic village, first inhabited in the sixteenth century. The aim of the field school is to prepare relevant documentation for the protection of those remaining elements that represent the cultural identity of the region. Each year the program adjusts its emphasis to address expanding aspects of this unique and extraordinary coastal landscape.

Accommodations: Students will be staying on the Island of Brac at Klesarska Skola, at private apartments in Radosic village, and in a student hostel in Trogir. Program cost includes full lodging and three meals a day. Students are responsible for locating and paying for their own accommodations during the four-day intersession break.

Cost: Program costs for the past four years have ranged from $5,100 to $5,400. This fee covers all expenses except airfare and personal travel during the four-day intersession break.

Faculty: The 2013 program will be directed by Architecture Associate Professor Rob Thallon with the participation of Landscape Architecture Professor Robert Melnick as well as experts from the Trogir Ministry of Culture, Professors of Ethnography from the University of Zagreb, and certified instructors from Klesarska Skola.
